

Participate in Operation Trapped - Pill Bottle Collection

Many veterans in Texas want a safer alternative to harmful prescription medicine, which can lead to addiction to narcotics and an alarming number of overdose deaths every year. It is a disservice to our veterans to criminalize the use of medical cannabis in the treatment of post-traumatic stress disorder (PTSD), traumatic brain injury (TBI), chronic pain, or other service related injuries. Texas can and MUST do better.

Participate in Operation Trapped to let your voice be heard at the Texas Capitol! We have launched a one-year, veteran led initiative, Operation Trapped, to collect a single used prescription bottle from every state veteran who wants a safer alternative.

To participate:

- 1. Print this PDF**
- 2. Fill out the info sheet at the bottom**
- 3. Mail it to us at:**

Texas NORML
 3571 Far West Blvd., PMB #205
 Austin, Texas 78731

We will take your information and place it inside of a prescription bottle with a hemp-plastic toy soldier. All of the information and bottles that we collect will be displayed at the Capitol during the upcoming legislative session and at other veteran events.

Learn about Phase 2 and Phase 3 of #OperationTrapped here - <https://www.texasnorml.org/operation-trapped/>
